

Help us raise awareness of the need for federal funds!

In order to help promote understanding of the challenges and needs of schools and students during the pandemic, we are requesting submissions of video clips (recorded with your cell phone) that are **10-15 seconds in length** to include a **teacher, counselor, campus principal, or parent** answering one of the following three questions:

- **What challenges have your students faced because of the pandemic?**
- **What challenges does your school (or particular students at your school) have that extra funding would help address?**
- **If the State of Texas made federal funding available how could that be used to help students?**

- Please record the clip in landscape format.
- Please try to reduce the amount of light behind the person in the video (light in front, not behind) so they can be clearly seen.
- Please try to reduce the amount of background noise (including wind) so they can be clearly heard.

Once you have captured the video (or videos--multiple samples from various perspectives are welcome!), you can **send them to us** by one of these methods:

- Text the video to **512-658-7498**
- Email the video, or a link to the video (iCloud, Google drive, Dropbox, or other cloud sharing services can be used) to **christy@txsc.org**

When you submit the video(s), we ask that you provide the **participant/speaker's name** and **position/role** (i.e. Jane Smith, 4th Grade Teacher or John Jones, Parent of 6th and 9th grade students)

Questions? Call or text Christy Rome at 512-658-7498 or email christy@txsc.org
